REGIONAL: PARTNERING TO PROTECT RAINFORESTS AND TRADITIONAL CULTURE IN THE NORTHEAST AMAZON

**Land & Resource Management:** Ethno-cultural mapping, monitoring of resources (rangers & apprentices and other resource persons)

**Communities' secure & sustainable livelihoods:**

Food security, value chain development, access to electricity and clean water.

**Internal Governance:** Oral history, traditional knowledge preservation, traditional clinic, empowerment of community, holistic planning

**External Governance:** Support land rights process, networking for rangers recognition, gain support for holistic planning and collaborate with GoS for field projects.
